PROFILE SUMMARY

I'm a **20-year-old** web developer specializing in front-end development. Passionate about programming, I chose it as my career path. I'm energetic, eager to learn, and thrive on solving challenges through self-study. I believe success comes from the ability to continuously learn, adapt, and master new technologies, not just from knowing everything.

WORK EXPERIENCE

HiWEB - Parsonline

Mar 2024 - Present

Front-End Developer - Full Time

- Redesigning and Developing the Farda Insurance admin panel.
- Developing the HiWEB Optical Fiber panel.
- Developing the Farda Insurance Investors panel.
- Resolving existing bugs within the Farda Insurance user panel.

Makeen Academy

Apr 2023 - Sep 2023 (6 month)

Front-End Developer - Internship

- Learning how to Develop Single Page Applications (**SPA**) with ReactJS.
- Using **typescript** for error control and performance optimization.
- Completed an intership as a ReactJS Developer, where the most significant skill i acquired was learning how to learn.

SKILLS

• Languages

Javascript
Typescript
HTML
CSS

• HTTP Libraries

Axios
React Query
RTK Query

• Validation

Yup
Zod

• Javascript Libraries

ReactJS

• Other

Git
Monorepo (Turborepo)
Prisma
Storybook
Familiar with SOLID

• Project Managment

Trello
Notion

• ReactJS Frameworks

NextJS

• State Management Libraries

Redux (Toolkit, Thunk)
Familiar with Zustand

• CSS Tools

TailwindCSS
Styled Components
Shadcn
Familiar with MaterialUI

EDUCATION

2022 - Present

IAU (South Tehran Branch)
Bachelor's degree student

PROJECTS

Monorepo with Turborepo

- This project uses Turborepo to manage multiple projects in one repository, featuring a global setup for Tailwind CSS, Shadcn UI components, and TypeScript. It highlights my ability to create scalable and maintainable architectures with modern web tools.

Tech Stack: **Turborepo, Shadcn UI, Tailwindcss, NextJS, Typescript**

[Medium Document for this project](#)

Farda Insurance admin panel at HiWEB

- An admin dashboard built with React, Vite, and TypeScript, enabling administrators to manage website content. My role involves implementing key content management features, highlighting my expertise in modern web development.

Tech Stack: **Vite ReactJS, Typescript, React Router Dom, React Hook Form, React Query, JS Cookie, Axios, Yup, React Hot Toast, Tailwindcss, HeadlessUI, Animate css, React multi date picker, swiper js**

HiWEB Optical Fiber panel at HiWEB

- Independently developed using React, Vite, and TypeScript, this panel allows optical fiber installers to log in securely via OTP and manage installations by submitting modem numbers. It highlights my frontend development and user authentication skills, optimizing workflows for large-scale deployments.

Tech Stack: **Vite ReactJS, Typescript, React Router Dom, React Hook Form, Zod, Tailwindcss, RTK Query, Redux Toolkit, Redux Thunk, Shadcn UI**

Farda Insurance Investors panel HiWEB

- Built with React, Vite, and TypeScript, this panel enables insurance investors to track their status, manage payments, and view transaction tracking numbers. It showcases my frontend development skills, payment gateway integration, and focus on user experience optimization.

Tech Stack: **Vite ReactJS, Typescript, React Router Dom, React Hook Form, React Google Recaptcha, Axios, Tailwindcss, Zod, Shadcn UI, Universal Cookie**
