PROFILE SUMMARY

A 20-year-old passionate and dedicated front-end developer with experience in building responsive, scalable web applications. Skilled in ReactJS, TypeScript, and modern web development tools, with a focus on creating user-friendly interfaces and solving complex challenges. Eager to continue learning and mastering new technologies while contributing to impactful projects.

WORK EXPERIENCE

HiWEB - **Parsonline**   Mar 2024 - Oct 2024 (8 month)

Front-End Developer - Full Time

- Redesigned and developed the Farda Insurance admin panel using ReactJS and Vite, improving usability and performance.
- Developed the HiWEB Optical Fiber panel, enhancing workflow efficiency for large-scale installations.
- Created the Farda Insurance Investors panel, integrating payment gateways and transaction tracking features.
- Collaborated on fixing bugs and optimizing the Farda Insurance user panel, ensuring smooth operations for end-users.

Makeen Academy   Apr 2023 - Sep 2023 (6 month)

Front-End Developer - Internship

- Built Single Page Applications (SPA) using ReactJS and TypeScript.
- Learned error handling and performance optimization techniques using TypeScript.
- Gained hands-on experience in working with state management libraries and HTTP tools.
- Developed a mindset of continuous learning and problem-solving through self-study.

SKILLS

Languages
- Javascript
- Typescript
- HTML
- CSS

HTTP Libraries
- Axios
- React Query
- RTK Query

Validation Libraries
- Yup
- Zod

Libraries and Frameworks
- ReactJS
- Working knowledge of NextJS
- Redux (Toolkit, Thunk)
- Familiar with Zustand

Other
- Git
- Monorepo (Turborepo)
- Familiar with Prisma ORM
- Storybook
- Familiar with SOLID

Project Managment
- Trello
- Notion

CSS Tools
- TailwindCSS
- Styled Components
- Shadcn
- Familiar with MaterialUI

EDUCATION

2022 - Present   IAU (South Tehran Branch)

Bachelor's degree student

PROJECTS

Monorepo with Turborepo

- Authored a detailed technical article on building a Monorepo architecture with Turborepo, published on Medium. The document provides a step-by-step guide on managing multiple projects in a single repository, using TailwindCSS, Shadcn UI components, and TypeScript to create scalable and maintainable architectures.
- The article has been well-received by the developer community, offering insights into optimizing development workflows with modern tools.

Tech Stack: **Turborepo, Shadcn UI, Tailwindcss, NextJS, Typescript**

Medium Document for this project

Farda Insurance admin panel at HiWEB

- Developed an admin dashboard using ReactJS, Vite, and TypeScript for content management, enhancing admin productivity.

Tech Stack: **Vite ReactJS, Typescript, React Router Dom, React Hook Form, React Query, JS Cookie, Axios, Yup, React Hot Toast, Tailwindcss, HeadlessUI, Animate css, React multi date picker, swiper js**

HiWEB Optical Fiber panel at HiWEB

- Built an interface allowing optical fiber installers to log in via OTP and manage installations, streamlining workflows for large-scale deployments.

Tech Stack: **Vite ReactJS, Typescript, React Router Dom, React Hook Form, Zod, Tailwindcss, RTK Query, Redux Toolkit, Redux Thunk, Shadcn UI**

Farda Insurance Investors panel HiWEB

- Developed an interface for investors to track statuses, manage payments, and view transaction details, optimizing user experience.

Tech Stack: **Vite ReactJS, Typescript, React Router Dom, React Hook Form, React Google Recaptcha, Axios, Tailwindcss, Zod, Shadcn UI, Universal Cookie**
